Informational OPEN HOUSE

Do you have questions or an interest in promoting, researching and disseminating information about African American History?

Stop by for an informational session with the Dallas Fort Worth Branch of the Association for the Study of African American Life and History (ASALH).

At ASALH, we are dedicated to promoting, researching, and disseminating information about African American history and culture.

During this session, you will have the opportunity to learn more about Carter G. Woodson, the visionary founder of ASALH, and his incredible contributions to African American history. Discover how his work laid the foundation for the important research and education conducted by ASALH today.

Furthermore, we will shed light on how the Dallas/Fort Worth W M Dulaney Chapter of ASALH is actively involved in serving our community. From educational programs to outreach initiatives, our chapter is committed to making a positive impact in the lives of individuals within our region.

Whether you have questions or ideas about ASALH or if you simply want to learn more about our mission and activities, this informational session is an excellent opportunity for engagement.
